Meeting Agenda

Date:

18/4-17

Chair:

Wallderino

Participants:

Simme, Wallderino, Jax, Antz

1. Objectives (5 min). Resolve any issues preventing the team to continue.

nAn

2. Reports (15 min) from previous meeting

Everything went down smoothly and everyone has done their part

3. Discussion items (35 min)

We have four things left to do, SDD, RAD, code, and Report.

In SDD comment on our illegal dependency and why we dont have alot of tests.

We are enginneers etc.

In code: Find bugs, avoid messy impression, JavaDoc, no hardcoded varibles, make fields final if possible, AssetsManager to services, rename tankRevolution package.

Redo RAD. Redo usecases

4. Outcomes and assignments (5 min)

Häger will do a SDD document and start it

Erlandsson do domain model

All continue working on the code and JavaDoc

5. Wrap up

Next meeting will be monday 22nd of May
